Greener Future.**

# About Us

TASHEED AL DAMMAM is a leading environmental services company, dedicated to delivering exceptional services to clients across the eastern province, Saudi Arabia. With a decade of experience in the industry, our team has built a reputation for delivering high-quality sustainable solutions. At Tasheed al dammam, we take pride in our ability to handle every aspect of the waste transportation process. Our skilled team of professionals works collaboratively to ensure that every project meets our client's exact specifications and the Saudi government's existing regulations.

## Our Mission

To provide exceptional services that exceed our client's expectations. We are committed to delivering high-quality projects while maintaining the highest standards of safety and professionalism. We believe in building strong relationships with our clients based on trust, transparency, and open communication.

## Our Values

At Tasheed Al Dammam, we are guided by a set of core values that define who we are and how we operate. These values are at the heart of everything we do and reflect our commitment to excellence, integrity, and continuous improvement.

**Excellence:** We strive for excellence in everything we do, from project planning and execution to customer service and communication. We are dedicated to delivering high-quality work that exceeds our client's expectations and meets the highest industry standards.

**Integrity:** We operate with the highest standards of integrity, honesty, and ethical behavior. We believe in doing the right thing, even when it's not the easiest or most popular choice.

**Collaboration:** We believe in the power of collaboration and teamwork. We work closely with our clients, partners, and stakeholders to ensure that every project is successful and that we achieve our shared goals and objectives.

**Safety:** We prioritize safety above all else. We are committed to maintaining a safe and healthy work environment for our employees, partners, and clients and complying with all relevant safety regulations and standards.

**Sustainability:** We are committed to promoting sustainability and protecting the environment. We believe that waste management is not just about disposing of waste, but about finding innovative and sustainable solutions that reduce our environmental footprint and promote a cleaner, healthier world.

**Customer Service:** We believe that our clients are our partners and that our success is tied to their success. We are committed to delivering exceptional customer service and to building strong, long-lasting relationships based on trust, transparency, and open communication.

# History Making

TASHEED AL-DAMMAM FOR GENERAL CONTRACTING Est.

is a leading name in the recycling industry of Eastern Province, Saudi Arabia, with over a decade of experience in providing comprehensive waste management solutions. Committed to excellence and sustainability, we have built a strong reputation for our adherence to Saudi government regulations and our dedication to environmental stewardship.

TASHEED AL-DAMMAM is specializing in general contracting. As a subsidiary, we benefit from the resources and expertise of our parent company while maintaining a separate identity and focusing on our unique offerings. Tasheed Al dammam started in the Eastern province of Saudi Arabia.

It was established in the year 2013 in Dammam and then it spread to cover the whole eastern province and to earn the satisfaction of its customers., the development of our service continued, and thus it offered a variety of residential, commercial, and industrial services to suit all tastes. The first service it offered was renting scaffolding, which is a temporary structure that is erected to support construction workers and materials while work is being done on a building or other structure, and after ten years, it has over twenty services to support its partners to their success.

## 2013 – 2014

### Company Was Established

Tasheed Aldammam was founded at the beginning of the year 2013 AD in the Eastern province of Saudi Arabia, which was at first simply an idea by its founders who were all under the umbrella of success by almighty Allah and a strong determination towards stability, and this stability has always been the main goal of our establishment.

## 2015 – 2016

### Waste Management and Heavy transportation services

The founding of Tasheed Aldammam was credited to one highly skilled professional with high expertise in management, operations, and communication. The beginning of the year 2015 AD witnessed the first real start of the expansion and development process inside Saudi Arabia by adding new business lines and services, which are non-hazardous waste dumpsters, flatbed trailers, and metal fabrication. These necessary additions came at this timing to cope with the local demand.

## 2017 – 2021

### We started shining in this field

With the entry of Tasheed Aldammam to the competitive phase with the large local companies and establishments, it occupied an advanced position among these establishments and a shining name in this field, and to reflect this large development and with the increase of the size of sales and the large demand, the management of Tasheed Aldammam called for manpower and distribution channels expansion.

## 2022 – Now

### New plan was developed (TSES)

After Tasheed Aldammam great success a new plan was developed to add a new section, as a kind of necessary expansion that serve the field of environmental services. which is the recycling of all types and forms of waste and also environmental consultation.

# Key Services

## Recycle Bin Distribution Solutions

We specialize in providing efficient and tailored recycle bin distribution solutions to numerous reputable companies across various industries. Our bins are strategically designed to facilitate waste segregation and recycling, promoting a greener and more sustainable environment.

Our range of stainless steel recycle bins combines durability with sleek design, offering both oval and square styles to complement any setting. With the flexibility to accommodate four types of waste in some models and three types in others, our bins promote efficient waste segregation and recycling, empowering our clients to embrace sustainable practices effortlessly.

### Recycle Bin (MODEL-TDGC-WB-001001)
